

Central Pennsylvania Review Form 2011

Publish Comments

William Suits:2011 had minimal activity for the section. The well attended fracking symposium strong interest suggests a model for other sections that may be impacted. The publicity for the Fracking Symposium could still be added to your report page, making it visible to others for inspiration.

The leadership has recovered. The current web site with regular meetings occurring in 2012 illustrates continued progress. Still most of the leadership has returned to the faithful at Junita without visible volunteers from more remote places.

Some activities are occurring on the PSU campus, but it seems to be hard to involve Lockhaven and PSU Altoona due to their remote locations. Is there a possibility of starting student centered programs at those locations like an annual poster session displaying research results at each of the schools with Judges from section leaders?

Recruiting wise investment advice might be in order to protect your principal in the investment reserves.
