

Central Pennsylvania Review Form 2012

Publish Comments

Robert Bass: The CP Local Section reported having a good year and was optimistic about the future. They held an election (electronic) and had 100% attendance at ACS national meetings. However, they had no attendees at National Leadership conferences but were optimistic about the new officers for the section and the potential leadership for the future. They have no formal succession plan but they are working to identify possible future leaders. They are also concerned about increasing the involvement of undergraduate and graduate students. They are working to make the students aware of job opportunities in chemistry and chemistry related sciences. Three timely and topical lectures were presented for the section. The section did not present a budget for 2012 or 2013. They had a deficit of \$3,193 for 2012. In 2012 meal expenses of \$1,278 were reported. However, no income from meals was reported. The Chair's annual report contained several worthwhile goals and objectives for the coming year. This section is doing reasonable well and does not seem to be in any difficulty.

Thank you for your review, Robert. I made an error in reporting the reimbursement we received for Councilor expenses - it should be 2110 rather than 1110. If that change can be made in that field, I'd appreciate it (I'm unable to edit). That would decrease our reported deficit, but most importantly I would like to have the correct number present on the form for future reference.

Sincerely,
Cathy Hetrick - Section Treasurer
